

GENERAL PROVISIONS

Beneficiary

An employee or any spouse has the right to name a beneficiary when he applies for insurance.

It is understood that the beneficiary designation made under the Policyholder's Group Life Insurance Policy shall be recognized as the beneficiary under the policy, unless a further designation has been made that specifically identifies the policy. Failing such designation, all benefits will be paid to the estate of the insured person.

All other indemnities of the policy will be payable to the insured person.

An insured person can change his beneficiary at any time, where permitted by law. Chubb Life assumes no responsibility for the validity of such designation or change of beneficiary.

The beneficiary designation made by the insured person (if any) under the replaced policy has been retained. The insured person should review the existing designation to ensure it reflects his/her current intention.

The policy contains a provision removing or restricting the right of the insured person to designate persons to whom or for whose benefit insurance money is to be payable.

Legal Actions

Every action or proceeding against an insurer for the recovery of insurance money payable under the contract is absolutely barred unless commenced within the time set out in the Insurance Act, Limitations Act, 2002 or other applicable legislation in the Insured's province of residence.

Change of Insurer

An insured person under a former policy may not be excluded from the new policy or be denied benefits solely because of a pre-existing condition limitation that was not applicable or that did not exist in the former policy, or because the person is not at work on the date of coming into force of the new policy.

The insured person and any claimant under the policy has the right, as determined by law applicable in the insured person's province of residence, to obtain a copy of his/her application, any written evidence of insurability (as applicable) and the Policy, on request, subject to certain access limitations.
